M300-60-b GG LEVEL

Glass-glass / monocrystalline / 300 Wp / Full Black / LEVEL roof-integrated system

Made in Deitingen (Switzerland)

Meets highest aesthetic requirements

Withstands highest static loads

Snow and soiling cannot stick

Lifespan of over 50 years due to glass-glass technology

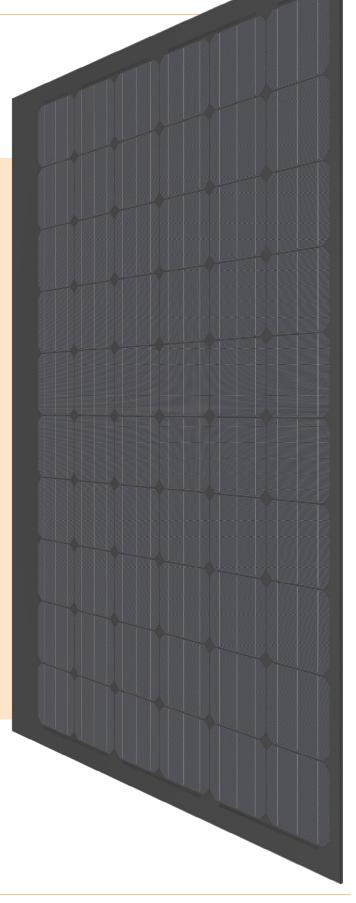

Full traceability of all raw materials

No tariff restrictions for exports to the EU

The LEVEL roof-integrated system consists of glass-glass solar modules that are overlapped – just like roofing shingles. Even complex surfaces can be covered, which makes it the perfect solution for entire and aesthetic roof integrations.
